FYREWASH® F3 Oil & Gas

**Effective, biodegradable cleaning
for offshore use**

This highly biodegradable water-based detergent is specifically designed for the tough conditions of gas turbines based offshore. It achieves superior cleaning with minimum environmental impact.

When should I use FYREWASH® F3 O&G?

Choose FYREWASH® F3 O&G if you are looking for exceptional gas turbine compressor cleaning while restricted by the environmental challenges of offshore sites. Use it with any compressor wash system for both on-line and off-line gas turbine compressor washing.

How do I use it?

FYREWASH® F3 O&G is diluted with four parts demineralised water and can be injected directly into the compressor during normal turbine operation (on-line use). It can also be used for off-line cleans, supporting your maintenance schedule.

FYREWASH® F3 is also available in wipe format to make manual cleaning even easier. (See separate data sheet for more information.)

Does it meet OEMs?

Yes. FYREWASH® F3 O&G meets most major original equipment manufacturer (OEM) and environmental standards around the world.

Properties

Appearance: Colourless.

Shelf Life: 3 years.

Typical Properties: Density 1.00g/ml@ 20°C, PH 7 - 7.5 (20% in water).

Dilution: FYREWASH® F3 O&G concentrate with four (4) parts of water into a stable solution.

Application: FYREWASH® F3 O&G can be used with any on-line or off-line injection system.

Water Rinse: When on-line washing, as with all our chemicals, it is best carry out a rinse flush with demineralised water. For off-line washing, rinse until the run-off is clear.

Antifreeze: If the temperature falls below +10°C, we recommend adding antifreeze. FYREWASH® F3 O&G is compatible with Methanol, Propylene Glycol and Ethylene Glycol. Enquire about our superior freeze point depressant.

FYREWASH® F3 Oil & Gas

Effective, biodegradable cleaning for offshore use

Health & Safety

FYREWASH® F3 O&G is safe and highly biodegradable. However, for off-line, crank washing all chemical solution and rinse water drainage should be collected and disposed of properly no matter what type of chemical is being used.

EC Hazard rating: corrosive. US NFPA rating 3,1,0

Protective measures: Non-hazardous but avoid frequent prolonged direct contact with skin to prevent possibility of de-oiling skin. Wear eye protection as a matter of course when handling any chemical.

If spilled: Absorb large spillages with sand or earth. Flush away small spillages with water.

Fire: Use earth or sand, carbon dioxide, foam or dry chemicals.

Management System

TARIFF CODE: 34029090

EUROPE ISO14001: 2015, ISO9001: 2015

Environmental Considerations

When using and disposing of any chemical, you should refer to your local environmental procedures. Collect the chemical solution and rinse water for correct disposal.

Ordering, Shipping & Storage

Ordering

FYREWASH® F3 O&G is available in:
25 lt (6.5 USG) pails (code: 73962)
210 lt (55 USG) drums (code: 73964)
1000 lt IBC (code: 73966)
Container of 200 lint-free wipes (code: 74000)

Shipping

It is classified as non-hazardous for international transport by road, sea and air.

Storage

Store in a cool, well-ventilated dry place in tightly closed drums and avoid temperature fluctuations.

Find out more about our FYREWASH® range:

High purity hydrocarbon solvent and surfactant formulation for heavy duty on-line and off-line compressor cleaning.

Best product for oil leaks and heavy fouling

A low foam water based cleaner containing a sustainable plant based grease cutter for on-line and off-line compressor cleaning.

Best low foam water based product on the market

Environmentally friendly water based detergent for on-line and off-line compressor washing.

Superior cleaning qualities that are non-hazardous and environmentally friendly

Environmentally friendly water based detergent for online and offline compressor washing on offshore oil & gas platforms.

Environmentally friendly developed specially for Rolls Royce gas turbine compressors.

We recommend using it with one of our injection system to ensure the highest results

Highly bio-degradable water based detergent with zero cloud point for on-line and off-line compressor cleaning.

Capable of removing the widest spectrum of fouling
